

Aspermont Independent School District

Wellness Policy and Implementation Plan Assessment 2024-2025

Implementation Plan Assessment Tool

By policy implementation, we mean the activities and operations of various stakeholders toward achieving the goals and objectives articulated in the Aspermont ISD Local Wellness Policy.

The purpose of this assessment is to analyze how well the Aspermont Local Wellness Policy is being implemented. The results of the assessment can be used by policymakers and stakeholders to clarify guidelines and directives, address barriers to implementation, improve resource mobilization, update implementation plans, or advocate for policy reform.

Referring to the goals and objectives of this policy, to what extent do you think these goals and objectives address the key issues in the school district?

- The consensus of the committee is that the goals and objectives address the key issues of the district.

Are the goals and objectives achievable within the timeframe set out in the policy?

- Yes, the goals and objectives are achievable within the timeframe set.

To what extent were stakeholders involved during the process of formulating the policy?

- Stakeholders were moderately involved as the SHAC committee reviewed and updated the policy, with little input from the community.

How well was the policy disseminated to the public?

- The policy was disseminated through the school web site and in the administration offices, and at Open House.

To what extent is your organization implementing the policy or involved in its implementation?

- The policy is being Implementing or involved in all relevant parts of the policy.

To what extent does the implementation plan include strategies to address goals and objectives?

- Strategies address key issues affecting the school community.
